

Annual Report
FISCAL YEAR 2003

RURAL VOLUNTEER FIRE DEPARTMENT ASSISTANCE PROGRAM
(HB 2604)

I. OVERVIEW

The Rural Volunteer Fire Department Assistance Program (House Bill 2604) was established in 2001 by the 77th Texas Legislature. The program provides \$15 million annually for training and equipping volunteer fire departments throughout Texas. Funds are derived from an assessment made on certain property and casualty insurers. The program is administered by the Texas Forest Service.

II. ACTIVITY

The program was designed in the Spring of 2002, in consultation with statewide advisory groups composed of firefighters, community leaders, educators, representatives from the State Firemen's and Fire Marshals' Association, Texas Engineering Extension Service, and the Texas Commission on Fire Protection. The program is designed to provide cost-share grants to volunteer fire departments in the following categories:

Fire Trucks	90% of the actual cost not to exceed certain maximums.
Fire Truck Chassis / Slip On Modules	90% of the actual cost not to exceed certain maximums.
Fire Equipment / Rescue Equipment	75% of the actual cost not to exceed certain maximums.
Firefighter Protective Clothing	75% of the actual costs not to exceed certain maximums.
Firefighter Training Tuition	100% of the cost of approved certified courses, subject to certain maximums.
Dry Hydrants	100% of the costs of components, subject to certain maximums.

Funds were apportioned by Region at the beginning of the year as follows:

<u>WEST TEXAS</u>	<u>CENTRAL TEXAS</u>	<u>EAST TEXAS</u>
20%	55%	25%

These allocations correspond to the location of the state's approximately 1,800 volunteer fire departments. At year end, the actual grant approvals by Region were as follows:

<u>WEST TEXAS</u>	<u>CENTRAL TEXAS</u>	<u>EAST TEXAS</u>
25%	51%	24%

West Texas is of special concern because the region needs water transport capability in the form of Tankers and Large Brush Trucks. These vehicles are expensive, and as a result, available grant funds were quickly exhausted.

III. STATUS

Funds under this program first became available in September 2002. The Texas Forest Service conducted funding meetings in September, October, January, May, and July of FY2003. The following requests for assistance were funded:

<u>Category</u>	<u>Number of Grants</u>	<u>Number of Items</u>	<u>Cost-Share Grant \$ Value</u>
Fire Trucks	174	174	\$11,042,980
Fire Truck Chassis / Slip-On Modules	82	82	1,617,044
Fire / Rescue Equipment	327	1,847 Items	1,498,051
Personal Protective Equipment	241	3,292 Sets	872,132 *
Training	294	1,094 Students / 67 Libraries	384,520
TOTAL	1,118 Grant Requests Funded		\$15,414,727 ** in Grant Funds Allocated

*Includes \$581,421 in Federal Funds through the Volunteer Fire Assistance Program.

**Includes federal VFA Program funds and \$457,857 of over-allocations as an allowance for cancellations and slippage.

IV. PLANS for FY 2004

In FY 2004, the following program amendments are proposed:

- 1) Increase Training Tuition caps to \$3,500 per department per qualified school. This is up from \$2,500 in FY 2003.
- 2) Conduct a special study to evaluate the fire department rating system for fairness and reliability. Adopt a revised rating system if necessary.
- 3) Modify the grant application process to require a map of each applicant's primary 911 protection area.

V. LEGISLATIVE NEED

There are two potential areas which will require legislative action:

- 1) The HB 2604 enabling legislation created the Rural Volunteer Fire Department Assistance Fund for the sole purpose of supporting the Rural Volunteer Fire Department Assistance Program. The current General Appropriations Act does not provide the requisite authority to spend unexpended balances in this fund. Once the fiscal year closes, any commitments that are released remain in the account but may not be expended. This has an adverse impact on the distribution of grants at the end of the year.

The Texas Forest Service will request authorization to expend carry-forward balances so that rural Texas communities receive the full measure of benefit from this program.

- 2) During its first year of existence, the program has received requests for grant assistance exceeding \$86 million. With an annual available appropriation of about \$14.3 million, there is now almost a 4-year backlog of grant requests. Most of this backlog is represented by requests for fire trucks. This backlog is expected to increase as more applications continue to arrive at the Texas Forest Service Emergency Services Grants Division.

The demand for grant assistance clearly demonstrates the need throughout rural Texas. Increased appropriations to the Rural Volunteer Fire Department Assistance Fund would greatly benefit rural communities and speed up the grant approval process.

VI. EFFECTIVENESS

The Rural Volunteer Fire Department Assistance Program is destined to become one of the most significant legislative initiatives of Texas government in the 21st Century. In its first year of operation it has assisted over 650 volunteer fire departments with the acquisition of fire trucks, fire/rescue equipment, protective clothing, and firefighter training.

The Texas Forest Service has made every effort to streamline the grant application and award process for volunteer fire departments. It has also limited its administrative costs to less than 5% of the annual appropriation during the first year of operation. The Bill authorized up to 7%.

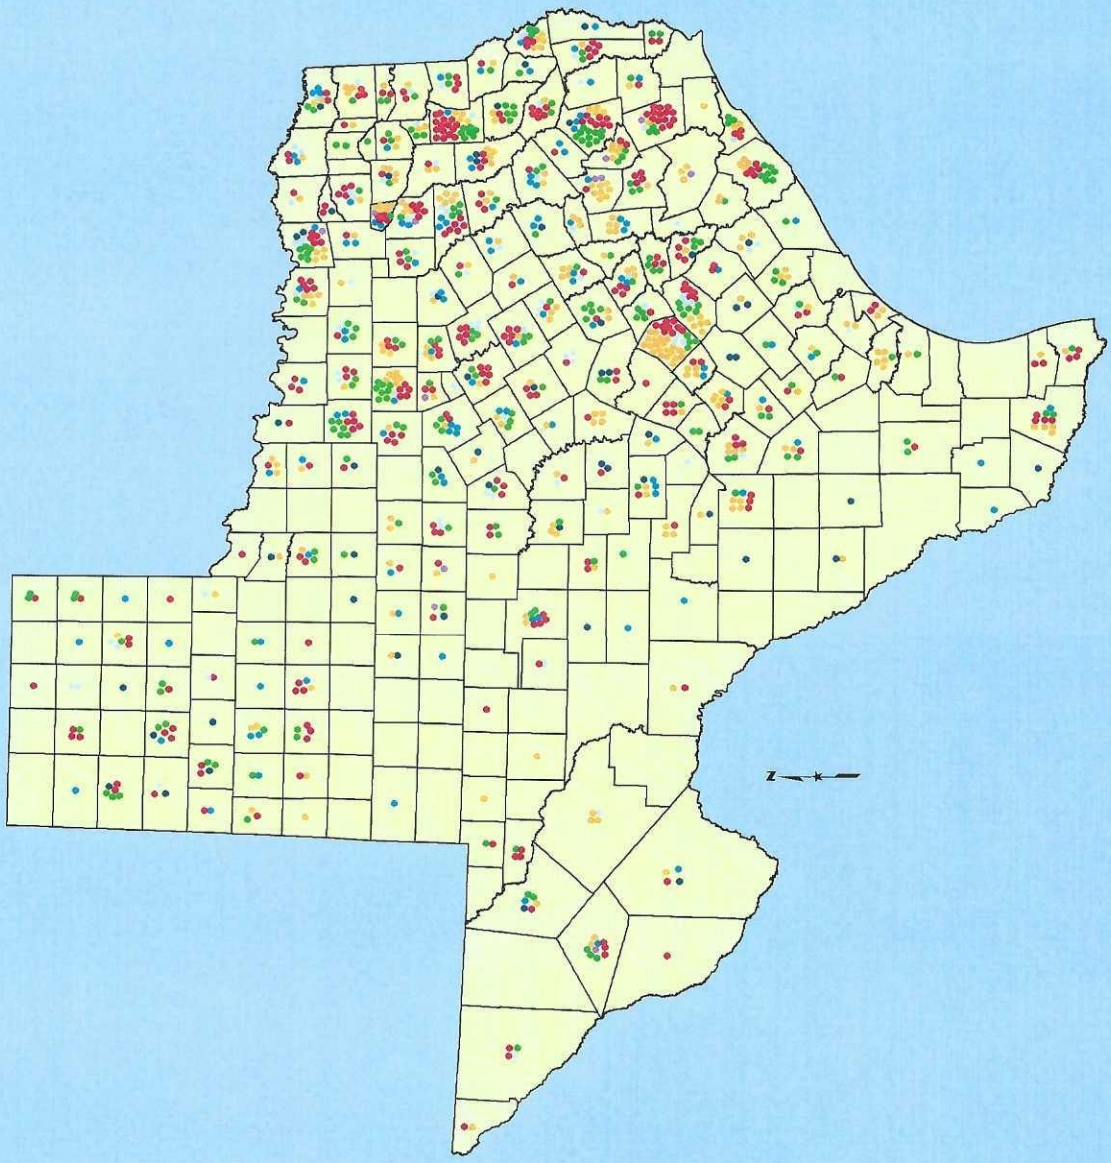

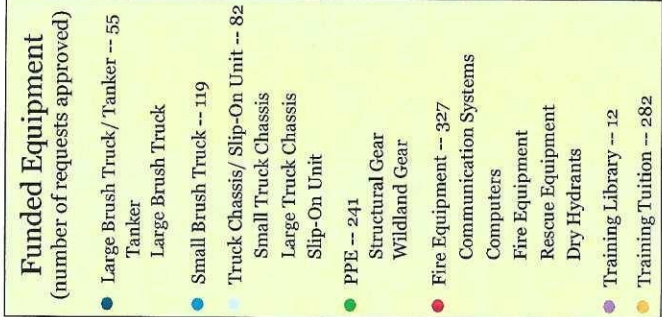

The demand for cost-share grants far exceeds the annual appropriation of funds for the program. In order to stretch state appropriations to the maximum, the Texas Forest Service has implemented a fire department rating system to guide decision makers. The rating system is under constant review to ensure fairness. The agency is very concerned with how this program will impact participants, partner agencies, and the 1,800 communities served by volunteer fire departments, and it is prepared to make mid-course changes in program design to improve the grant approval process.

By all measures, this is a highly effective program of state government.
