

**ANNUAL REPORT
FISCAL YEAR 2007**

**RURAL VOLUNTEER FIRE DEPARTMENT ASSISTANCE PROGRAM
(HB 2604)**

I. OVERVIEW

The Rural Volunteer Fire Department Assistance Program (also known as the HB 2604 Program) was established in 2001 by the 77th Texas Legislature. It provides \$15 million annually for training and equipping volunteer fire departments throughout Texas. It is funded through the Rural Volunteer Fire Department Assistance Fund, which is composed of revenue derived from an assessment on certain property and casualty insurers. The program is administered by the Texas Forest Service.

The program was designed in the Spring of 2002, in consultation with statewide advisory groups composed of firefighters, community leaders, educators, representatives from the State Firemen's and Fire Marshals' Association, Texas Engineering Extension Service, and the Texas Commission on Fire Protection. The program is designed to provide cost-share grants to volunteer fire departments in the following categories:

Fire Trucks	90% of the actual cost not to exceed certain maximums
Fire Truck Chassis' / Slip-On Modules	90% of the actual cost not to exceed certain maximums
Fire Equipment / Rescue Equipment	75% of the actual cost not to exceed certain maximums
Firefighter Protective Clothing	90% to 75% of the actual cost not to exceed certain maximums
Firefighter Training Tuition / Fire Training Libraries	100% of the cost of approved certified courses, subject to certain maximums
Dry Hydrants	100% of the costs of components, subject to certain maximums

II. ACTIVITY

In FY 2007, funds were apportioned by Region at the beginning of the year as follows:

<u>WEST TEXAS</u>	<u>CENTRAL TEXAS</u>	<u>EAST TEXAS</u>
20%	55%	25%

These allocations correspond to the location of the state's approximate 1,800 volunteer fire departments. At year-end, actual grant approvals by Region were as follows:

<u>WEST TEXAS</u>	<u>CENTRAL TEXAS</u>	<u>EAST TEXAS</u>
19.92%	54.42%	25.65%

III. STATUS

The Texas Forest Service conducted funding meetings in September, November, March, and July of FY 2007. Special Emergency Grants were issued throughout the year to fire departments suffering catastrophic losses of fire equipment. State grant funds were also combined with federal grant funds to assist fire departments located in counties seriously damaged by Hurricane Rita. The attached summaries show the grant approvals by category, region, fire department, and county. The following requests for assistance were approved:

<u>Category</u>	<u>Number of Grants</u>	<u>Number of Items</u>	<u>Cost-Share \$ Value</u>
Fire Trucks	140	140	\$10,435,049
Fire Truck Chassis / Slip-On Modules	59	59	\$1,352,284

Fire / Rescue Equipment	344	904	\$1,331,180
Personal Protective Equipment (PPE)	244	5,837	\$973,860
Training	1,642	5,292 Students 65 Libraries 43 E-Projectors	\$1,778,692
			<hr/>
	2,429 Grant Requests Approved		\$15,871,065 in HB 2604 Grant Funds Allocated
TOTAL			

IV. PLANS FOR FY 2008

The 80th Texas Legislature approved House Bill 3315 which amended the Texas Insurance Code and increased the annual allocation for the Rural Volunteer Fire Department Assistance Program by an additional \$15 million. These additional funds will become available in FY 2009. Beginning in FY 2008, the Texas Forest Service in conjunction with the HB 2604 Advisory Committee will develop funding guidelines and program amendments to take effect September 1, 2008. It is expected that the majority of the additional grant funds will be used to fund a portion of the huge backlog of applications for fire trucks.

V. LEGISLATIVE NEED

There is no legislative need at this time. The legislative action by the 80th Texas Legislature to double funding for the program is singularly outstanding. This immensely important boost to the program will contribute greatly to reducing the current three year waiting list of fire truck applicants and will make a profound impact on people's lives. On behalf of volunteer fire departments everywhere, the Texas Forest Service extends its most sincere thanks and gratitude to the legislative heroes who strengthened and improved this honored and most remarkable program.

VI. EFFECTIVENESS

The Rural Volunteer Fire Department Assistance Program continues to be a highly effective program and is recognized nationwide as one of the most successful legislative initiatives of Texas government in the 21st century. In its first

five years of operation it has placed in service over 887 fire trucks, has provided safety gear to an estimated 26,000 firefighters, and has helped train approximately 18,000 firefighters. In 2006, the USDA Forest Service awarded the program its national Franklin Award for outstanding service in protecting underserved rural communities.

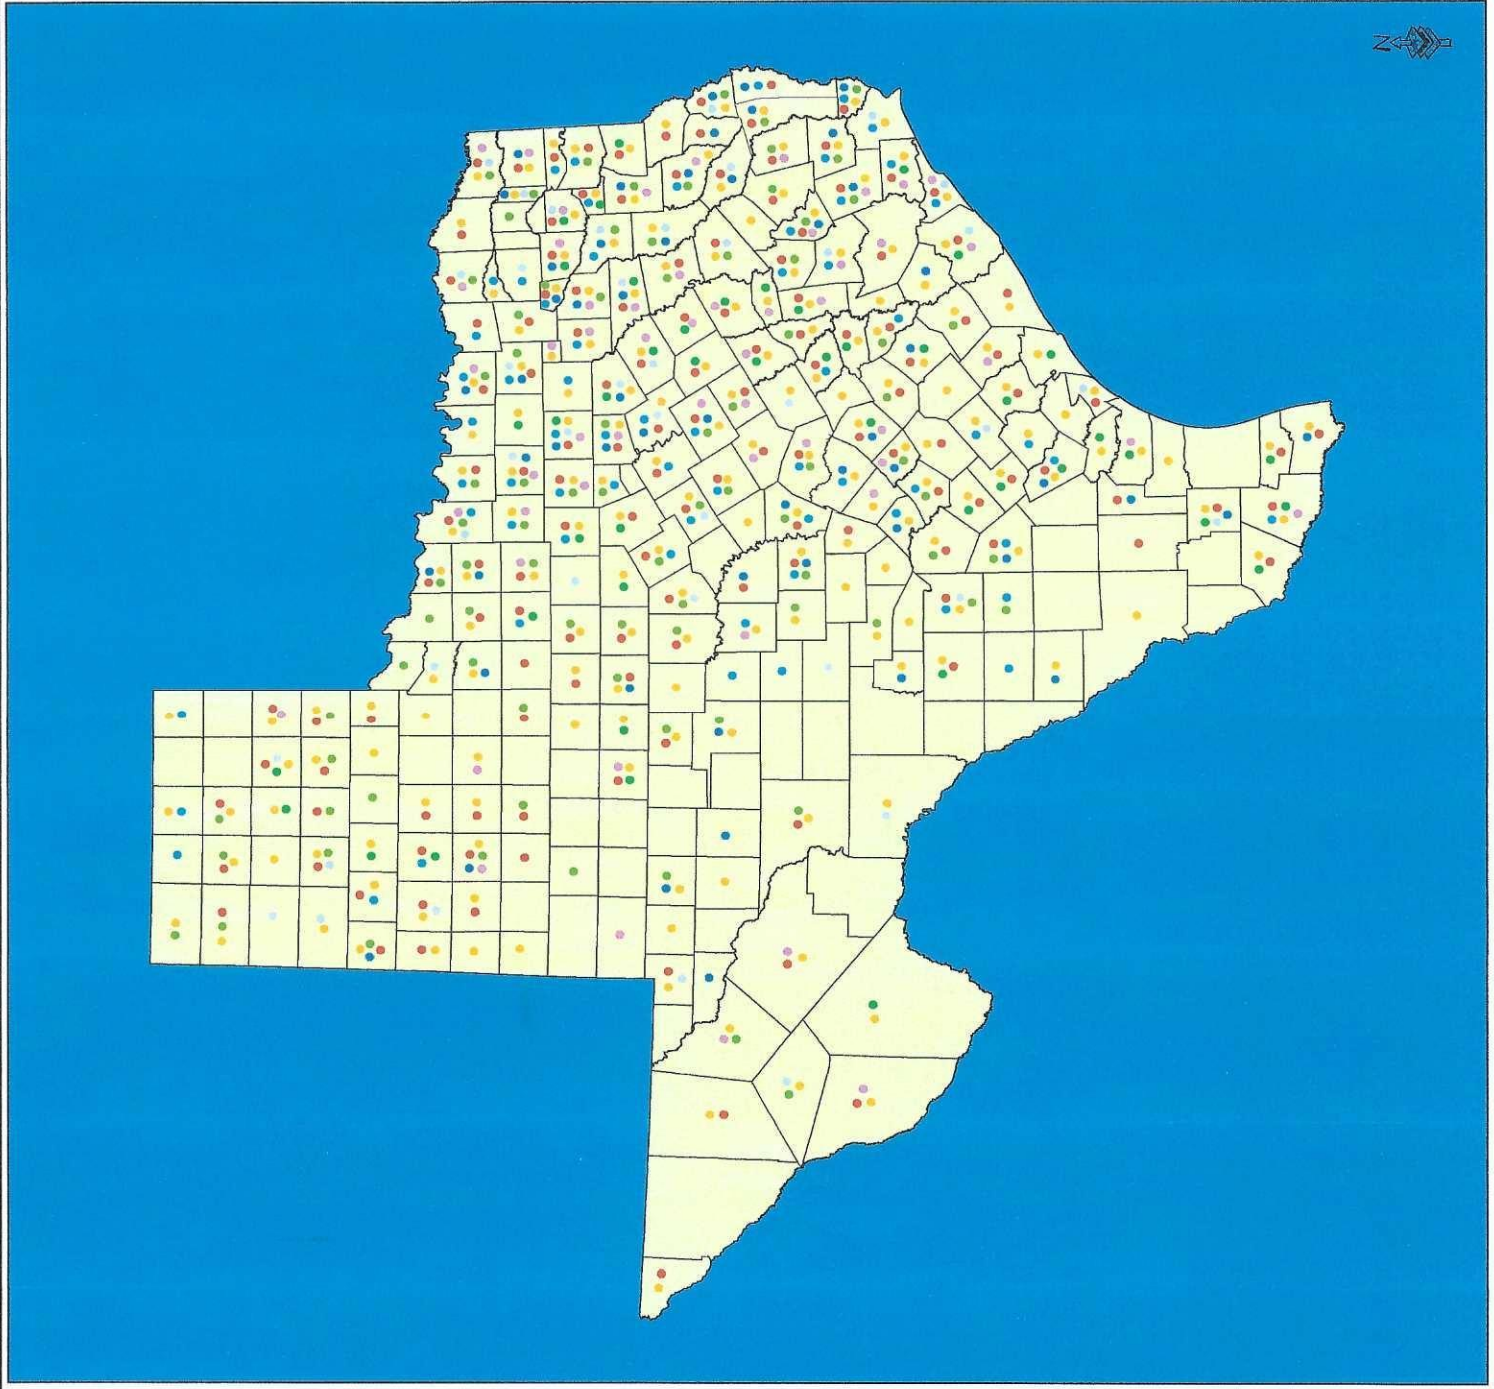

The Texas Forest Service has leveraged HB 2604 funds with federal USDA funds to make this program very friendly and responsive to the needs of Texas communities. It has also developed a simple and straightforward grant application process that makes it easy for rural fire departments to enroll.

The Program has experienced overwhelming support and participation from Texas volunteer fire departments. There are currently huge grant application backlogs for fire trucks and radio communications equipment. The current \$39 million demand for grant funds far exceeds the Program's annual appropriation of \$15 million. This gap between demand and limited funding still requires many applicants to wait three years or more before receiving a grant for a fire truck, however, the additional \$15 million in revenue which becomes available in September 2008 will help greatly to accelerate grant approvals and reduce the application backlog.
